MOULDED CUP WITH VALVE P2 RESPIRATOR

The Frontier P2 Moulded Cup With Valve Respirator provides protection against dust, mists and fumes. A cushioned nose seal, adjustable nose bridge and a highly efficient exhalation valve allows snug comfortable fit to a range of face shapes and sizes.

FEATURES & BENEFITS

- Provides P2 Protection against mechanically and thermally generated particles
- Pre-shaped nose cushion and contoured face seal provides a comfortable and secure fit
- Highly efficient exhalation valve for improved breathing
- Twin elastic headband and adjustable straps for a secure fit
- Adjustable nose bridge

APPLICATIONS

Sanding, cutting, drilling, soldering, smelting, welding, waste sorting and general cleaning.

STANDARDS

Certified to AS/NZS 1716:2012 Respiratory Protective Devices. To be used in conjunction with: AS/NZS 1715:2009 - Selection, use and maintenance of respiratory protective equipment.

WARNING

1. Product should be fit tested before wear
2. Facial hair may compromise the required protective seal of the respirator
3. Ensure the presence of adequate oxygen levels
4. Must not be used in atmospheres that immediately dangerous to life and health (IDLH)
5. Ensure the contamination is known and the respirator is suitable for the application
6. Replace when taste, smell or the breathing resistance is high

DISPOSAL

These respirators:

- Should not be cleaned and reused
- Should be disposed of as solid waste after use
